Dear Mr Bullard

Ditchingham: Proposed Quarry for Mineral Extraction – Planning Application by Larfarge Aggregates Ltd

Thank you for your letter of 19 January 2006.

You are correct to infer that at this stage officer advice to Members is likely to be no highway objection subject to appropriate conditions relating to access and wheel washing facilities.

The appropriateness of a junction must be considered in relation to the individual circumstances of any particular application.

The application supporting documents do not indicate any additional highway improvements and at this stage officers are seeking none.

Yours sincerely

Senior Engineer Major Developments
for Director of Planning and Transportation
